# Alluvia: AI Knowledge Agent

where every stream of knowledge converges

Transform your **organization's scattered documents** into a **unified, searchable knowledge base**. Generate precise answers, smart outputs, and faster decisions while keeping your data completely private.

Step 1
Upload
Your Knowledge 🧠

Alluvia learns from your content—**analyzing your documents** to provide **precise, context-driven insights and trusted answers**.

Step 2
Smart Search
With Source Proof 🔍

Alluvia **searches, analyzes**, and **answers** with instant **side-by-side views** — check response against original source at one glance.

Step 3
Automate Reports,
Charts, And Insights ✨

Alluvia turns knowledge into **charts, tables, reports, and summaries** — clear, structured, and ready to use instantly.

Key Benefits 🌟

🔒 Private By Design

With **private cloud** or **on-premises deployment**, your information stays **secure inside your environment**—never leaving your hands.

✅ Verified Answers With Source

Alluvia delivers **instant, source-backed answers** with side-by-side document views so you can **trust and verify** every response.

⚡ Work Smarter, Not Longer

Reduce document review time from days to minutes. **Focus on higher-value work** that requires your expertise.
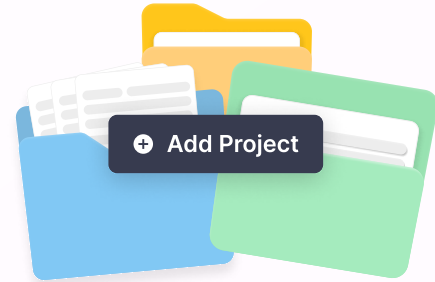

🤖 Real AI Agents, Not Just Chat

Goes **beyond text**—trigger **actions and workflows**, and **integrate with your existing systems** for ticket creation, email sending, and more—**all in one seamless flow**.

Alluvia unifies your work and let you —
Organize, Analyze, and Act in an All-in-one AI workspace

## Core Functions: Smarter, Faster, More Organised Workflow

#1 Project-Based Workspaces 🗂️

- **Create Multiple Projects:** Organize everything your way—by client, case, team, or topic.
- **Project Dashboard:** Pre-set report templates based on use cases (e.g. tender, project brief etc.)
- **Project-Specific Chat:** Each Project has its own AI chatbot that answers using only that Project's knowledge—no mix-ups.
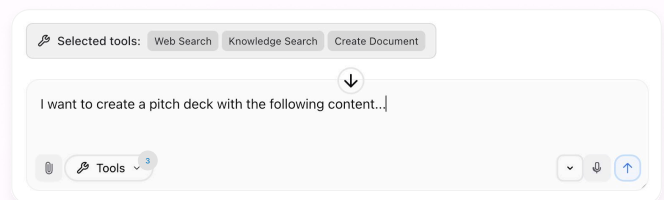

⊕ Add Project

#2 Instant Insights Generator 📊

- **One-Click Reports & Charts:** Create reports, tables and charts instantly
- **Flexible Editing Anytime:** Refine and customize results to fit your exact needs.
- **Export & Sharing:** Export to .DOC, .XLSX, .PDF, or .PNG for easy printing and sharing.

73%

#3 Smart Agent Toolkit 💬

- **Knowledge Search Agent** for answers from your trusted sources
- **Web Search Agent** for real-time internet information
- **Document Creation Agent** to draft files in seconds
- **Integration Agent** to connect with your business systems
