Benefits

Management

- ↑ Work efficiency, communication & resource allocation
- ↑ Staff awareness of fall risk and prevention
- ✓ Fall scene investigation
- ✓ Smart devices light system

Elder users

- ↑ User satisfaction & self-management
- ↑ Dignity, freedom & happiness
- ✓ Better quality assurance to family

一位護理員分享

保健員L表示，有的老人家很不喜歡別人幫她沖涼，尤其是自尊心較高的院友，尤其是女性。她們會高估自己身體狀況良好，認為沒有達到需要他人幫助的程度，所以不希望護理人員站在旁邊監督。院友會說“如果我跌倒會嗌你，到時候你推門進來看看就好”。L表示這樣的想法的長者很多。但如果真的院友在自己沖涼的時候發生暈倒或跌倒，或許聲音都無法發出。這樣在外面的護理人員很難發現裡面發生什麼情況，發生安全問題後，一方面會錯過長者的及時救治，另一方面責任又會是屬於護理人員。

L說：“監督衝涼的工作是費力不討好，長者不願意，我們很辛苦卻又不得不勸說他們理解，一切都是為了他們的安全考慮”

如果你嘅個Moment 可以幫手睇住佢地，咁樣唔使日日睇人沖涼，佢地也唔尷尬啊，大家都開心！

Sharing

一位管理層分享

我哋管理人員通過屏幕，可以大概知道老人家是否係入面，主要驚佢地自己沖涼或上廁所時有意外。因為院友都係女士，唔方便直接入去bathroom。同埋 有時院舍有廣播，如果我大聲啗，驚入門人聽唔到。

(Safety & Privacy)

希望未來Moment 可以幫助我哋了解，點解護理工作嘅姑娘會唔follow 住schedule做嘢？如果係忙，點解會咁忙？有冇可能大家通過望住個屏幕，咁樣唔使行來行去。或是，通過肢體動作可以了解到會唔會有員工會做嘢渣，有冇偷雞？
