Autonomous Document Processing (ADP) Topology

Strategic values by the power of algorithm

- No-GPU required
- Data extraction from your document image and autonomous classification of document
- Information extraction without pre-defined selection windows
- New type of document can be trained and added into the system

We use receipts as example to illustrate ADP ai power

Receipts are very much different among retailers and suppliers. You cannot pre-define a specific window to extract i.e. “purchase items” from all receipts. The information must be understood, extracted and matched with the accounting fields.

ADP, an AI tool, can autonomously (1) extract the data of supplier, date time of purchase, total amount, purchase items etc (2) classify the type of expenses of the receipt and (3) input into the corresponding fields of accounting system

Online Preview Document & Further Explore

The screenshot displays the ADP (Access iVisions Document Preview) interface. On the left, a sidebar contains the ADP logo, buttons for 'Upload Document', 'Searchable PDF', and 'Global Content Search', a search bar with the text 'access + identity card', and a table of document entries. The main area shows a preview of a document, which is a Hong Kong Identity Card. A search bar at the top of the preview area contains the text 'lee', and a dropdown menu shows search results. A green callout box points to the search results with the text 'Further Explore Inside the Transformed PDF document'. On the right, a table lists document details, including 'Original Doc (KB)', 'Uploaded By', and 'Status'. At the bottom, a 'Dismiss' button and a contact email 'contact us: adp@iss.com.hk' are visible.

Why Our ADP

1. No-GPU required
2. Data are owned and controlled by you 100%
3. Information extraction from unstructured data on-premises/ private cloud while competitors continue wrestle public cloud risks
4. Self-improving and learning system
5. Improve business operational efficiency
6. Local source code development
7. Local ai support & development for your future needs

Thank you
