Blueprints: Key Use-cases per Industry

Simplicity   Security   Scalability

Manufacturing	Power Utilities	Energy	Transportation	Smart Cities

Industry Cisco Validated Designs (CVDs)

Manufacturing	Power Utilities	Energy	Transportation	Smart Cities

• Industrial Automation
• Plant Wide Connectivity
  • Factory Security
  • Factory Wireless
	• Substation Automation
	• Smart Metering
	• Distribution Automation
	• Utility WAN
		• Industrial Automation
		• Connected Pipeline
			• Connected Rail
			• Connected Mass Transit
			• Connected Roadways
				• Lighting, Parking, Environment, Safety and Security
				• Connected Community Blueprint

Connect, Secure And Automate

Cisco Umbrella (SASE)

- Visibility and enforcement at the DNS layer

- Block requests to malicious domains and IP addresses

- Predictive intelligence: Uncover current and emergent threats

- Protect all devices on your branch network against:

  - Malware

  - Phishing

  - Command and control (C2) callbacks

- Reputation-based URL filtering

- Static URL filtering

Block

Cisco® Umbrella

Cisco IR1835

More Information [Security Configuration Guide, Cisco IOS XE Release 17.x - Cisco Umbrella Integration [Cisco SD-WAN]](#)

Use Case and Benefits

Airport

Warehouse

Distribution Center

Parking Lot

1 4G/5G Modem Attachment

4G/5G modem will attach to base station and obtain DHCP IP

2 PnP Discovery

Cellular interface is configured with DHCP automatically.

PnP discovery kicks off over 4G

3 PnP Cloud Connection

Resolve DNS host devicehelper.cisco.com.

Secure connection to PnP cloud is established and device presents SN#.

Obtain APIC-EM IP from Cloud.

4 PnP Provision

Provision configuration and image securely.
